PROFILE SUMMARY

Backend Developer (PHP | Laravel) who designed and developed scalable web applications and RESTful APIs. Built and delivered a real-world appointment booking system handling 100+ weekly appointments with secure authentication, role-based access control, and optimized backend performance. Experienced in database design, system architecture, and API integration with a strong focus on clean code and scalable solutions.

PROFESSIONAL EXPERIENCE

Freelancer Work

jan 2026 - now

Freelance Backend Developer (PHP / Laravel)

Projects:

• Baytak Mintel Club System

- Scope: Backend Developer (PHP | Laravel)
- Client: Dr. Alaa Adel (Clinical Psychologist)
- Budget: 1500 AED

Responsibilities:

- Increased scheduling efficiency by 30% by designing an automated appointment flow that replaced manual booking processes.
- Optimized database queries and server-side logic, reducing page load time by 25% for over 100+ active weekly users.
- Achieved 100% data integrity and privacy by implementing advanced Role-Based Access Control (RBAC) and data encryption for sensitive patient records.
- Delivered the project within a 1500 AED budget, meeting 100% of the client's technical requirements and deadlines.
- Redesigning backend API responses led to a 20% reduction in mobile data usage for patients accessing the system via smartphones.

EDUCATION

Bachelor of computer science

Graduation Year: 2026

Islamic University Of Gaza

- Focused on Software Engineering principles, Data Structures, and Database Management Systems.
- Completed intensive coursework in Full-Stack Web Development, achieving excellence in PHP and JavaScript projects.
- Earned professional certifications in Agile Methodology and Communication Skills to complement technical expertise.
- Awarded the Graduation Certificate in April 2026 after completing a rigorous Computer Science curriculum.
